# TREMONT STEEL CUT NAILS

Time Tested for Over 200 Years

—A Division of Acorn Manufacturing Co., Inc.—

January 17, 2019

*All prices listed and product specifications are subject to change without notice*

As America's oldest nail manufacturer, we are in a position to offer the older patterns of cut nails appropriate to the period of restoration being undertaken. In addition to a variety of styles of nails, we can provide information to help the restorer in determining the authenticity of a project.

Cut nails possess great durability. They are hard to pull out because the shape causes the wood fibers to push downward and wedge against the nails, thus greatly strengthening the holding power. Once you have used them, you will prefer them for all sorts of applications.

## ❖ SHOPPING INFORMATION ❖

### ORDERING

Nails sold by 1, 5, or 50 pounds. The stock# listed in catalog is for 1 pound box. Add a "V" to the end for 5 pounds or an "L" for 50 pounds. Only Headless Brad available in 1/4 pound "F". Ex: CB4L = 50 pounds.

**By Fax:** FAX the order form to us, 24/7 to 508-339-0104. Order form is on back cover.

**By Telephone:** Call 508-339-4500. Sales representatives are available from 8:00 am to 5:00 pm (ET), Monday–Thursday. Credit card orders are accepted. Visa, MasterCard, Discover or American Express.

**On Line:** Enter [www.tremontnail.com](http://www.tremontnail.com) and go to our online store.

**By Mail:** Complete our order form, supplying all the information requested so that your order can be processed promptly. Mail the form to Acorn Mfg., PO Box 31, Mansfield, MA 02048. Credit card, money order or personal check accepted. Please make checks payable to: Acorn Mfg. Co.

### SHIPPING

Most orders from the catalog are shipped via Federal Express ground. Federal Express cannot ship to a PO Box. Orders of this nature will be shipped by US mail. Orders to the territories and possessions of the USA are shipped by UPS. Most orders ship within five working days unless unusually high demand has temporarily depleted our stock. If this occurs, we will advise you when you can expect delivery. Please contact our customer service department for more information on shipping charges.

Should you require faster shipping service, Next Day, Second Day, and Three Day select shipping are available via UPS or Federal Express.

**Questions?** Call our Customer Service Dept. at 508-339-4500, 8:00am to 5:00pm (ET), Monday–Thursday. Or email us at: [info@tremontnail.com](mailto:info@tremontnail.com).

### Returns & Exchanges

If you are not satisfied with a product, please contact our Customer Service Department. They will arrange to either have the merchandise picked up or provide you with a Return Materials Authorization (RMA) number.

For returns, your account will be credited less a 20% restock charge. Simply return the merchandise to us prepaid by either UPS or mail. The RMA number must be referenced on the returned merchandise.

For defective merchandise, we will gladly replace the product or credit towards a replacement product.

### Non US Orders

We accept U.S. funds only, and for your convenience, we recommend you use a credit card or bank money order. Personal checks or money orders are not accepted unless drawn on a U.S. bank. Import duties are paid by you, directly to your government.

## DEFINITIONS

**STANDARD** – A steel cut nail with a powder-gray finish which can be clinched; not a hardened nail.

**HARDENED** – A nail which has been heat-treated and tempered for special hardness.

**HOT-DIP GALVANIZED** – A zinc-coated nail, hot dipped in molten zinc to resist rusting. These are not hardened nails. However, special order nails can be hardened and then hot-dipped. The additional price to galvanize any nail not shown with a "Hot-Dip Galvanized" option is \$3.00 per pound, with a minimum order quantity of 250 pounds.

**FACE NAILING** – Nailing perpendicular to the board surface so that the head of the nail is exposed. Nailing in this manner can be for both functional and aesthetic purposes.

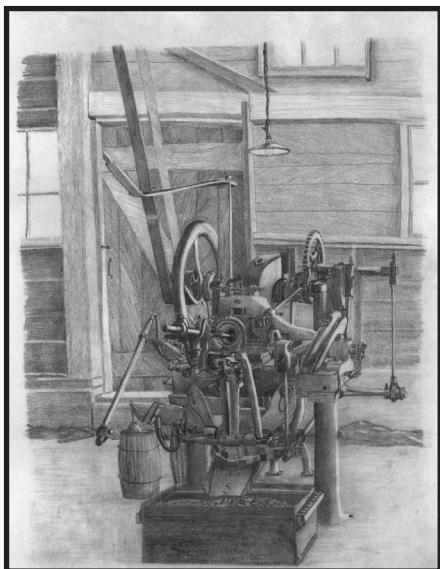

**BLIND NAILING** – Nailing at a 45-degree angle through the edge or butt-end of the board, which may be a flat surface, ship-lap or tongue-and-groove. Nails used in this fashion usually have small heads and are not visible when the installation is completed. Also called 'toe-nailing', the sole purpose of nailing in this manner is functional rather than aesthetic.

**BLACK OXIDING** – A black matte finish etched to the surface of the nail which is a standard offering on the Decorative Wrought Head nail and is available as an option on all other non-hardened patterns. The additional list price to place a black oxide finish on a nail is \$2.00 per pound, with a minimum order quantity of 100 pounds.

## ACCESSORIES

Puzzles • Kegs • Etc.

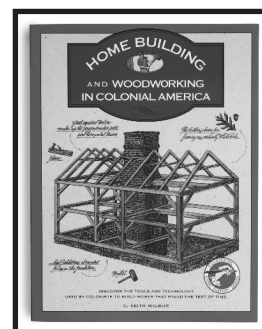

### NAIL MACHINE PRINT

During the late 1700's, the first cut-nail making machines appeared and the first machine to cut and head a nail in one operation was invented by Ezekiel Reed of Bridgewater, Mass. Drawn in pencil and then printed by our own artist Erik Michelson, this is an authentic drawing of one of the century-old nail machines still used in our factory. Available in print only.

**Print Only (11" x 14")**  
**TP100**

**\$22.83**

### HOMEBUILDING AND WOODWORKING IN AMERICA

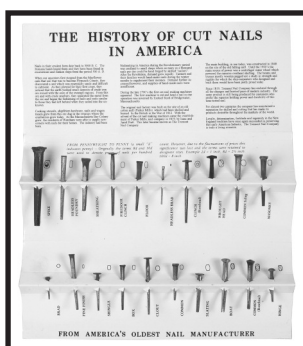

Tools and technology that the American colonists used to build homes stood the test of time. C. Keith Wilbur, a retired medical doctor and former naval officer who served in World War II, is the author of Globe Pequot's *Illustrated Living History* series, which now comprises nine titles.

**TB300 \$29.91**

### SAMPLE SETS

This sample set mounted on card stock contains 20 varieties of Tremont Cut Nails as well as the history of nail making and other descriptive materials. The set can be wall mounted for quick reference. Ideal for the home craftsman or history buff.

**TN50 Sample Set 1Lb. \$27.19**

### NAIL DISPLAY BOARD

This is the wooden display board version of our popular sample set containing the 20 varieties of Tremont cut nails. Each nail is mounted in an individual slot and can be removed for viewing and inspection. The birch laminate display board also contains the complete narrative history of cut nails in America.

**TN60 Display Board 2Lbs. \$92.66**

### WOODEN NAIL KEGS

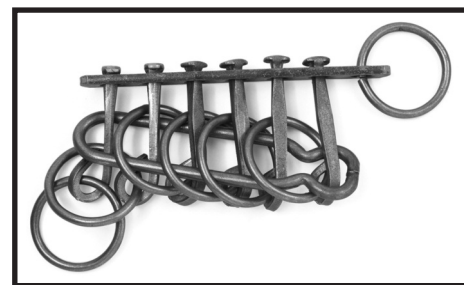

**BY POPULAR DEMAND, TREMONT IS ONCE AGAIN OFFERING THE HISTORICAL** Wooden Nail Kegs. These kegs are similar to those which Tremont used to ship cut nails worldwide for over 150 years. The sturdy kegs are constructed from pine staves, pine heads, and wood bands. The kegs are commonly used today for stools, planters, toy boxes—and storing nails. The kegs can be painted, stained or left natural.

Size 13" x 18". Shipping weight 14Lbs.

**TK1218 \$133.54**

Lid Sold Separately.

**TLID \$43.61**

### PATIENCE PUZZLE

Clinched nails from Tremont add an authentic touch to this well-known Chinese ring puzzle. Hand-forged examples are often attributed to ship-smiths on whaling vessels.

**TPATPUZ \$44.63**

**Common applications for nails listed below pricing.****BOAT**

Tremont Boat nails are widely used for wooden boat construction. Use the Hot-Dip Galvanized nails only for this application. Standard Boat nails, which are not Hot-Dipped, are often used to face-nail floors.

ALL NAIL WEIGHTS ARE NET. ALL NAIL COUNTS SHOWN ARE APPROXIMATE.

**CAUTION:** Care should be exercised in driving Hardened Steel nails.  
Keep hammer away from body and take care to strike nail squarely.

**IMPORTANT: ALWAYS WEAR SAFETY GLASSES WHENEVER DRIVING ANY NAILS.**

*Common applications for nails listed below pricing.***FINE FINISH**

These slender nails are popular for wood applications where a slim brad-head nail is appropriate, such as furniture repair, cabinet work, casings, batten doors, paneling and countertops.

			STANDARD			
Size	Length	Nails Per Lb.	Order by Stock No.	50Lb.	5Lb.	1Lb.
3d	1-1/4"	348	CE3	\$387.00	\$62.82	\$15.81

**FRAMING & PLANK FLOORING****CUT SPIKE**

Used for heavy construction work, these strong spikes drive well through planking and heavy timber for deck and bridge work. They are made on our oldest "nailer" (circa 1865) by heating the steel plate to a reddish hue and **feeding it by hand** into this massive machine. Spikes are cut at a rate of about 40 per minute. Available Standard and Hot-Dip Galvanized.

**CONCRETE CONSTRUCTION & FLOORING****HINGE**

Ideal for fastening antique hinges and sometimes used for face-nailing floors. Head style is similar to a Boat nail, but Hinge nails are made from a slightly lighter gauge of steel providing more nails per pound.

**FLOORING, SIDING & SHINGLING, FURNITURE & DOORS****DECORATIVE WROUGHT HEAD**

Designed to simulate the hand-forged nails of the late 1700's, the head is three-sided and the nail has a black oxide coating. Also available galvanized. Ideal for authentic restoration and antique effect. Uses include rough sawn interior and exterior siding, face-nailing flooring, batten doors, paneling, countertops and cabinet work.
